

JACQUI GUSH

I am purely an amateur artist who enjoys learning more about art and its different media and techniques.

I completed Art and History of Art at 'A' level, but my career took me into business and eventually into education. Throughout my life, I have always continued with art classes and courses, along with pottery and calligraphy over time. I enjoy art as a serious interest and a stimulating hobby in my retirement.

I joined PEDAS with continued learning and sharing as my intention. It is great to be with fellow artists and like-minded people and somehow I ended up as Chair several years later!

I enjoy a variety of different media, particularly watercolour and pastels, separately or together. I also love drawing, using pencil, charcoal and pastel. I apply myself to a range of different subject matter and choose the medium I feel is most appropriate.
