

JAN WALL

"I was born and brought up in Dorset, loved Art and crafts at school and on leaving I trained and worked as a Potter for 39 years of my working life, throwing and decorating pots - hence not being afraid of a paint brush!

My love is watercolours, and although I love trying inks and collage I always return to this medium. I love the happy accidents and use salt / cling film and granulation fluid etc on a diverse range of subjects. Whatever inspires me.

I exhibit locally with PEDAS, BBAG and Wimborne Art Club."
