

## PETER GREENWOOD

Since childhood I've enjoyed drawing and painting. I moved to Dorset several years ago and my change in career has given me the time to focus on my art work.

I initially began painting using watercolour but now work mainly in mixed-media, using acrylic paints, inks and collage.

I usually base my paintings on photographs taken through the years and am inspired by the effects of light on townscapes, markets and boats. Where possible I include impressions of the human form both to enhance the perspective and to bring life to the painting.
