

SUSAN HAWES

Susan has been drawing from her own photographs for several years since attending drawing classes with local artist, Heather D Lewis. She has also attended various workshops including botanical painting, and life drawing.

She completed a Diploma in Drawing and Painting with the London Art College during lockdown with distinction. This broadened her knowledge as it was all working from life or imagination using watercolour, oils, acrylic and charcoal.

About three years ago she joined PEDAS and enjoys taking part in many workshops, trying various techniques and watching demonstrations and being part of the friendly art group.

She enjoys portraying landscapes, portraits, animals and nature.
